THIS PAPER may be found on file at O. P.

postage provided for in Act of October 3, 1879.

John P. Clum in his letter in
the boiler plate forgot to say any-
thing about the new delivery of-
fice in the vicinity of Safford and
Seventh streets.

THE Tombstone public must
have smiled with derision when
they read the boiler plate this-
morning, the bare idea that any-
thing was ever copied from the
columns of that old defunct con-
cern or of its ever getting up any-
thing original causes a good nat-
ured smile to overspread our faces.
It is true that the dimensions of
the gearing and machinery are the
same as those written by the chief
engineer and printed in the boiler
plate but there there the lameness
ends. We published the descrip-
tion of those famous pumps so as
the world would know something
about the character of the machin-
ery in operation in our city, still
knowing that the boiler plate was
not even read by our fellow town-
men. We leave the "original col-
umns" of that sheet to advertise to
the outside world the silliness of
that imbecile John P. Clum the
egotistical ass who wishes to tell
the public that the business men of
Tombstone insisted on his return-
ing to our city. A fellow who when
he ran away from Tombstone did
everything in his power to give the
camp a black eye, telling the Wash-
ington papers that the robbers fol-
lowed him down the road for the
purpose of assassinating him, when
the truth of the matter is, that
when this sop left town every
business man said amen. So much
for this impertinent prevaricator.

If Gaul would carry a man
through this world, we know a
certain real estate agent in this
city that would be perched higher
than the Bartholdi statue.

How do you like our paper.

THE TOMBSTONE don't publish
the letter list for the simple reason
that we don't get it.

UNION printers forever.

Te boilerplate will soon be in
sheet.

COCHISE county for mines, Co-
chise county for cattle, Cochise
county for health and Cochise
county for wealth.

We started in as a narrow gauge
and have succeeded in killing the
boiler plate. We will continue to
be a narrow gauge for a while, but
will soon branch out into a broad
gauge. So say the people of
Cochise cou ty.

THE doctors have managed to
quarrel over the cholera in Madrid.
Dr. Ferran, whose system of inocu-
lation has been much discussed,
has given notice of his inte tion to
leave Spain. Professional jealousy
is at the bottom.

ENGLAND's pall is the Pall Mall
Gazette, which is causing the high
and mighty to jump around peil-
mell.

If the Mahdi is really dead, as
reported by way of Cairo, he must
have been a false prophet, inas-
much as he had already announ-
ced what he intended to do next Sep-
tember.

Three Suicides in one Family.

BALTIMORE, July 21.

Fredrich Burmeister, a well-known,
wealthy German restaurant proprietor
after having caused his wife and daugh-
ter to commit suicide took his own life
yesterday morning. Deceased was 45
years of age. He was of a very tyrann-
ous disposition, and he frequently
abused his family when under the in-
fluence of liquor. About the first of
last October Burmeister went on a pro-
tracted spree and spent \$1,000. He
then went home and assaulted his wife.
Shortly after she was found by a neigh-
bor lying on the floor of her room with
the main artery of her left wrist se-
vered, and in an insensible condition.
Burmeister was in a drunken stupor.
When she regained consciousness she
said her husband had inflicted the in-
juries. The latter was arrested and
bailed out for trial. Burmeister
threatened his wife after she recovered
that if she ever prosecuted him for the
cutting he would kill her. Through
fear of her husband the poor woman
hanged herself the day before the trial.
Burmeister then transferred his brutal
treatment to his children, and a month
later his eldest daughter, Lizzie, aged
21 years committed suicide by hanging

Burmeister leaves an estate valued at
\$1,000. He has four children liv-
ing.

England and Russia.

LONDON, July 21.

In Ministerial circles no fear in en-
tertained of an immediate quarrel with
Russia. Notwithstanding this, how-
ever, measures for the defence of India
are being constantly pushed toward.
General Stewart, Commander-in-chief
in India, will, it is said, be appointed
to one of the vacant seats in the Indian
Council, in which case Lord Wolseley
will be given chief commanding in In-
dia. Earl Dufferin, Viceroy of India,
has issued an order prohibition officers
of the Indian army, who are on fur-
longh, from to Cashmere, ostensibly
because a return thence would be diffi-
cult and slow in case of a hurried recall.
It is reported that Colonel Lockhart,
who has gone to Ghar, the main en-
trance to the Valley of Cashmere from
Central Asia, with a year's supplies,
avowedly for the use of a surveying
party, is really engaged in a political
movement of importance. From Paris
it is stated that an officer aboard the
Andalous, writing from Nagasaki,
says that the British despite the de-
nials of the English Government, is fly-
ing over Fort Hamilton, in the Korean
Archipelago. He further states that
the British are busily engaged in pre-
paring military defences and laying
torpedoes and mines at Port Hamilton,
and that some Russian troopships,
loaded with troops, which recently ar-
rived there, were greatly surprised to
find the place completely occupied, and
were compelled to retire.

After Cabinet council this afternoon
the Marquis of Salisbury, Lord Ilder-
sleigh (sir Stafford Northcote) and Sir
Michael Hicks-Beach, Chancellor of the
Exchequer, had a consultation at the
Foreign Office with Baron de Staal,
the Russian Ambassador to London.
It is understood the conference was on
the Afghanistan question, and it is
said the negotiations between the En-
glish and Russian Governments for an
amicable adjustment of the dispute are
progressing in a perfectly satisfactory
manner. The special courier who was
sent by Sir Peter Lumsden from Pen-
jideh, at the time of the difficulty there,
to London, to give the Gladstone Min-
istry special information concerning
the Penjideh battle was at the Foreign
Office during the conference, and in
fact all day, helping to elucidate the
problem raised by the increased Rus-
sian force near Zulikar.

IT LEADS ALL.

No other blood-purifying medicine is made,

or has ever been prepared, which so com-
pletely meets the wants of physicians and
the general public as

Ayer's Sarsaparilla.

It leads the list as a truly scientific prepara-

tion for all blood diseases. If there is a hard-

ening taint of Scrofula about you,

SCROFULA, AYER'S SARSAPARILLA will

dislodge it and expel it from your system.

For constitutional or scrofulous Catarrh,

CATARH, AYER'S SARSAPARILLA is the

truly remedy. It has cured

numberless cases. It will stop the nauseous

catarrhal discharges, and remove the sicken-

ing odor of the breath, which are indications

of scrofulous origin.

ULCEROUS "At the age of two years one of

SORES my children was terribly afflicted

with ulcerous running sores on its

face and neck. At the same time its eyes

were swollen, much inflamed, and very sore.

Physicians told us that a pow-
erful alternative medicine must

be employed. They united in recommending

AYER'S SARSAPARILLA. A few doses pro-

duced a perceptible improvement, which, by

an adherence to your directions, was con-

tinued to a complete and permanent cure. No

evidence has since appeared of the existence

of any scrofulous tendencies; and no treat-

ment of any disorder was ever attended by

more prompt or effectual results.
